

WHEEL SERVICE EQUIPMENT

Wheel Balancer

Entry Level *europa* 12

EUROPA12

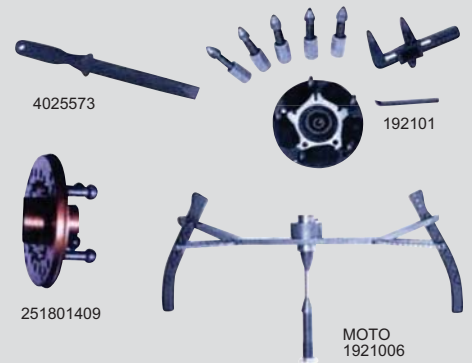

Slow speed motor driven microprocessor wheel balancer with automatic brake. Handles car, motorcycle and light truck wheels up to 65 Kg (1431bs.) weight

- Virtual Plane Measuring System allows for precision, stability and indifference against temperature and humidity.
- Dual large display allows easy reading of imbalance on both planes.
- Balancing time only 6 sec.
- High balancing accuracy (1 gr - 0.05oz) reduces possibility of returns
- Self calibration and self diagnostic programs minimize maintenance cost
- Tyre matching, static, dynamic, moto dynamic and 6 ALU programs meets all balancing needs.

Standard Accessories

Accessories on Request

Technical Specs:

Rim diameter range	203-635mm (8"-24")
Rim with range	80-500mm (3"-20")
Max. tyre diameter	1117mm (44")
Max. wheel weight Input power	70kg (154 lbs)
Weight with standard access	95kg (210lbs)
Input Power	230VAC, 1ph, 50-60 Hz
